

Renovating on a budget

NEW homeowners will know how difficult it is to transform their house renovation dreams into reality. More importantly, budget constraints present a significant barrier to have the ideal home.

One of the most important additions to any new home is undoubtedly the kitchen. Fortunately, you can make your home renovation budget work for you in your quest for your dream kitchen.

Be the smarter one and opt for KubiQ – the modular kitchen and wardrobe system featuring low prices, no waiting, trusted quality, and a no-frills approach that will give you cost savings.

KubiQ is based on an innovative Self-Involvement Concept where you choose exactly what you need without unnecessary extras. You are able to take charge and coordinate your kitchen or wardrobe planning and design from start to finish – all while sav-

ing money. Here are the ways you can save:

- * KubiQ's completely modular systems means you pay only for the modules and fittings you need, in the exact layout you want.

- * You are your own designer and kitchen consultant, leaving out professional costs.

- * Ezikit, KubiQ's patented 3D miniature modelling kit, is an easy design and quotation tool.

- * KubiQ's transparent and detailed component price list enables you to manage your own budget without hidden costs and fees.

- * Opt for your own delivery and self-installation, or have KubiQ's third-party recommendations at a nominal cost.

With KubiQ, now you can have kitchens your way without burning a hole in your pocket.
